R&P ENTERTAINMENT AGENCY CANADA

This has been a successful year for R&P Entertainment Agency L.L.C on developing R&P Canada. We have started a great journey to launch a international company entitled R&P Entertainment Agency Canada. We have asked ourselves some challenging questions – and asked the professional executives and other Agency's to help us answer them.

R&P started reflecting on our strategic objectives in a well-crafted and new regulatory landscape. The focus was on how publicity and our marketing strategy will better serve our clients .

While formulating the business vision, we quickly found ourselves going further in terms of things that needed consideration. This PDF explains the range of our work completed internally to review how we work and start making better decisions.

We drafted a new Business Vision working with new clients, new members, sponsors, managers, even coordinators and financiers.

R&P is now better equipped for facing different kinds of potential challenges of fair and proportionate regulation that protects clients and the public and is responsive to the needs of out clients .

About R&P Entertainment Agency Canada

R&P Entertainment Agency Canada was developed as subsidiary of R&P Entertainment Agency L.L.C. R&P Canada was created to bridge the gap between PR, and Marketing in the international sector of the entertainment industry. The Founder and C-E-O of R&P Entertainment Agency LLC, has stated this international partnership is needed and will become big. The Co-Founder of R&P Entertainment Agency "Canada" is Matt of MATT-PR. This is an interdependent joint venture between R&P Entertainment Agency LLC & Matt PR. This Division was developed to assist our clients in the U.S. with development and exposure for their brand in the international market. Gaining press internationally can be difficult but for us, we have handcuffed the "INTERNATIONAL" media with the U.S. media. Although it has been incorporated as "R&P Entertainment Agency Canada", we handle all other international media markets as well.
